General Information

Description

As a former educator and trained presenter, I will be introducing you to the LearnDash platform and will provide you some tools and skills you can use to design your courses.

Expectations and Goals

By the end of this lesson the students will understand:

- The structure of LearnDash
- How to create clear and effective objectives
- What materials are suggested for an effective lesson
- How to create quizzes that effectively check of understanding of the objectives

Course Outline

Lesson	Title
1	The Structure of Learn Dash
2	Objectives
3	Quizzes: Making sure your students get it
4	Materials: Giving your students the materials they need to succeed

Additional Information and Resources

Please make sure your download all materials

Each PowerPoint is available for download under the materials tab
